Nancy and Linda had the pleasure of being inviting to the “cruise to nowhere” ship preview for travel agents of Royal Caribbean’s Mariner Of The Seas on February 20th for 2 nights. The following is a review of this fantastic event!

SHIP REVIEW: Royal Caribbean has succeeded in bringing the “WOW” back to the Mexican Riviera by moving the Mariner Of The Seas to the West Coast. This ship has officially *arrived* and will be offering the 7 day Mexican Riviera cruise itinerary out Los Angeles.

This ship is very high energy and an absolutely perfect fit for families and active traveler’s. Royal Caribbean has always provided quiet, Un-crowded areas on their ships and you can indeed find those places on the Mariner. But, their busy Promenade area gives you an outside feeling experience with shops, cafe’s and many nights of entertainment. We were able to witness the Mardi Gras type Parade one evening, as well as the very pumping 70’s dance party another evening. Both of these entertainment spectacles get you moving and groovin!

There is also an ice skating rink, both for the enjoyment of guests, as well as an entertainment venue. This ice show was really a “WOW” experience. It was unbelievable to witness the skating expertise of the performers on such a small ice rink! This show is not to be missed! In the main show lounge you have excellent sight lines so that no matter where you sit you can see well. The seats are comfortable and of course with state of the art sound and lighting, this room provides a great show.

The pool deck offers many hot tubs and two pool areas. The main pool has some tiered seating facing the entertainment stage and was very comfortable with the pool bar close at hand so that you can grab a cool drink when needed. The jogging course circles above this area where there are more deck chairs to lounge in. The gym is state of the art, as is the spa. Both are very large and comfortable.

OK, we must talk food! The dining room is 3 stories and very lovely from every level of seating. The waiting crew is talented and you could tell they are all pros. The specialty restaurants give you a very dedicated dining staff, superior ambiance and extraordinary menu’s. All of the dining onboard was excellent in flavor and choices provided. Johnny Rocket’s diner is really a fun way to move back in time to the old fashioned soda fountain. The burgers and shakes are great. I don’t want to give anything away, but the waiters really shake things up!

I have much more information and kudos for this ship and this cruise line. The cabin choices on the Mariner are many and we are here to help you understand the cabin choices that you have. Why not join in the fun and experience this innovative cruise experience of the biggest ship on the West Coast?
